PREDICTS RISE IN RATES

After Observing Conditions Abroad, He Pleads for Liberality Toward Railroads.

Special Cable Despatch to THE SEX.
LONDON, June 12.-John F. Harris, partner in the firm of Harris & Winthrop of New York, will sail for home on the Kaiser Wilhelm II. after several weeks in Europe on business. In a talk with The Sun correspondent Mr. Harris said:

"Capt. Scott was due back where we ment of Germany," continued Mr. Harris, "and impressed with the prosperity, on March 15 or earlier, but the sea froze thrift and enterprise of her people. I spent several days in Berlin. I had not been there for fifteen years. Its business men are aggressive, able and thorough. Germany is suffering from the results of overprosperity, for the enormous demand for money provokes some strain on credit, but I do not believe/that.

"Capt. Scott was due back where we were mencement week guests were entertained at the Lyceum by the Cornell masque. In accordance with their policy of building up the school of forestry in the State College of Agriculture at Cornell University, the trustees to-day announced the appointment of Samuel N. Spring, as professor in forestry, and it was announced that he would take up his duties of overprosperity, for the enormous demand for money provokes some strain on credit, but I do not believe/that.

The photographs taken by Mr. Ponting at the Lyceum by the Cornell masque. In accordance with their policy of building up the school of forestry in the State College of Agriculture at Cornell University, the trustees to-day announced the appointment of Samuel N. Spring, as professor in forestry, and it was announced that he would take up his duties in place of Prof. Filmore Roth of the University of Michigan, appointed last winter, but who decided not to leave Ann Arbor. "I have been astonished at the develop strain on credit, but I do not believe that there is any occasion for anxiety. The greater account of Germany's progress."

Metchnikoff Announcement.

LONDON, June 12.-Dr. Charles Reinthat though the glyco bacteria is unknown in London it is highly probable that the professor has under observation a bacteria whose influence it is to promote normal glycogenic functions.

Glycogen, says the doctor, is a material produced from food in the liver of most animals, a substance chemically identical with starch, though of animal origin The glycogen producing functions of the liver are now regarded as much more important than the functions producing bile. which were formerly considered to be the chief work of the liver and that any interdiseases, including diabetes.

tion of the discovery, concluded Dr. Reinto sour milk producing bacillus, the inthat Prof. Metchnikoft is continuing his investigation into the best way of preventing intestinal putrefaction, for it is admitted that bowel cleanliness is not only the best means of securing health but also the best means of preventing the evils of premature old age.

HARMONY OVER MOROCCO.

England and France Agree on One of Spain's Claims.

Special Cable Despatches to THE SCH. MADRID, June 12 .- It is stated that Great Britain, in agreement with France, will accept with slight modifications the Spanish note concerning the Werga Valley question in Morocco. This has been one of the important points in the Franco-Spanish negotiations for the settlement of their

respective rights in the African country The disagreement regarding the railway question remains unsettled, but it is believed that the end of the negotiations will be satisfactory. The completion, however, is not in sight.

ROME, June 12.- A memorandum presented to the Pope to-day by the Spanish congregation in Morocco stated that their property in the North African country had been valued at \$41,500,000. If France, which has assumed a protectorate over that country, expelled the Church it must pay for this property.

NEW SECRETARY OF WAR.

J. B. Seely Appointed to Succeed

Haldane,

Special Cable Despatch to THE Sex LONDON, June 12 .- J. B. Seely, formerly parliamentary secretary to the Colonial Office, has been appointed Secretary of War to succeed Viscount Haldane. It is understood the latter is to receive a judicial appointment.

Mr. Seely is the eldest son of Sir Charles Mr. Seely is the eldest son of Sir Charles Seely. He received his education at Trinity College. Cambridge. He was prominent in political circles before he was 30, and was interested in the Rush-cliffe division, Nottinghamshire, in 1892. He is a member of the Brooks and Athenaum clubs.

Dr. Bell distinguished some of these as cancerous, but said the others were Counsel subsequently said he would show that the doctor was mistaken, as one of the samples he had selected as cancerous had been taken from a healthy

A procession of doctors testified in support of Dr. Bell's theory and the successes of his treatment.

Sir Robert Simon, an authority on skin diseases, testified in favor of Dr. Bashford and the knife. He told how twenty out of twenty-eight of his own operations had been successful.

Dr. Bashford under examination declared that he was not hostile to theories which aimed at dispensing with oper ations; indeed, the principal object of the highest authorities was to find a substitute for surgery, but he was forced to the conclusion that up to the presen surgery was the sole and effective method of attacking cancer. He disagreed with the contention that vegetarian nations escape cancer and said the alleged immunity of the rice eating Japanese had been disproved. Thirty thousand Japanese, die of cancer every year.

Dr. Bashford said Dr. Bell might have written his books out of vanity or ignorance but he accepted the doctor's disavowal that he was seeking gain.

Maritime Riots in Palermo.

Special Cable Despatch to THE SUN. PALEENTO, June 12.—A general strike was inaugurated here to-day as a protest against the low maritime conventions, which, it is claimed, damage the interests of the port. A mob paraded the streets and compelled the shops to close. The police were stoned, where upon the troops charged the mob. Many were injured. There was wholesale smashing of windows, and an attack on the town hall is threatened.

ENGLISH STRIKE TO COLLAPSE? Disappointed Leaders Say They Are

Ready to Discuss Terms. Special Cable Despatch to The Sux. LONDON, June 12 .- In the face of the

general strike order of the transport workers an officer of the por of London to-day declared that 8,530 men were taken on at the various docks to-day. They were working to load or unload

107 ships, this officer declared, and had The union call to 200, 0) transport On January 3, 1912, Capt. Scott was The union call to 200, 0 transport reported to be 150 miles from the south workers of England was not generally beyed.

The day closed without further adhesions to the number of strikers. The efforts of the leaders to bring the Liverpool workers into line failed and the Atlantic sailings from that port were not affected. There is apathy at a majority of the ports and the ailled workers are surprised and disappointed. The leaders in the course of a manifesto to-night gestion of the white flag. They say:

"So far as the strike committee is concerned we are prepared to end the dispute on honorable terms.

The manifesto declares that the regre of the whole dispute is that the employers forced the situation "and are now whining bludgeons of the police and the coattails of Parliament, while their guilty work is a view of testing the doctor's contention imposing unnamable hardships on innocent women and children as well as the vorkers." The manifesto asserts that international action is being considered.

The Chronicle, a supporter of the Gov ernment, says the Cabinet has decided to take no action in the matter, but to allow the trouble to be fought out. The Ministers have been influenced in this respect by a lack of unity in the ranks of labor and the impossibility of a federation of sections of the employers. They iso feel that the introduction of legislation to settle the coal strike was a dangerous experiment which cannot be followed in the present case.

Secretary Leggett of the Carmen's Union, who tried to hold up a meat convoy last night and was arrested, was to-day sentenced to pay a fine. He refused to do so and was sent to prison for a month.

MUST HAVE BOATS FOR ALL.

Lord Mersey Interrupts Titanic In quiry to Make Statement.

Special Cable Despatch to THE SCH. London, June 12 .- The number of life oats carried by transatlantic liners London Board of Trade before the Titanle disaster was based on the tonnage and not on the number of persons aboard, so the Titanic investigators were told to-day by Sir Walter A. Howell chief of the maritime division of the Board of Trade.

Sir Walter explained that the Board of Trade's regulations based the scale of life saving appliances on the gross tonnage of the vessel rather than on the passenger and crew capacity.

Lord Mersey, interrupting the witness, said it was his opinion that every ship should carry sufficient lifeboats o save every person on board.

In deference to public opinion since he sinking of the Titanic, the witness further testified British ship owners had told the Board of Trade that all ressels of upward of 1,500 tons would nenceforth carry life boats and life rafts adequate for all on board. He added that his personal opinion was that "public opinion," when in opposition to that of experts, was valueless.

WELLS COLLEGE EXERCISES.

drs. Cleveland, '85, Attends Annual

Commencement-Gifts Received. AUBURN, June 12. - Frances Folsom Cleve 85, was a prominent figure in the annual commencement exercises at Wells College to-day when thirty-nine graduater received degrees. Bliss Perry, DD. LL. D of Harvard, was orator. An anonymous gift of \$20,000 and another of \$10,000 from Andrew Carnegie to complete the Cleveland Library, and lesser gifts, including the deeding of Wave Bank to the college property in Aurora, were announced.

The board of trustees lost seven members by death or resignation within the last few months. Besides filling the vacancies action was expected on the appointment of a president to succeed George Morgan Ward, D. D., LL. D., who resigned two months ago. The trustees postponed action until next tall and Robert L. Zabriskie of Aurora will continue to be acting president. Among the prize winners were Belle D. Reed of East Orange, N. J. Indrew Carnegie to complete the Cleveland

VALET POSES AS A DIPLOMAT. harms Visitor-Invited to House -Steals His Jewelry.

Special Cable Desparch to Tue St. Paris, June 12 .- Michaud, a former valet at the Spanish Embassy here was envious of the aristocratic callers studiously copied their manners and rapidly mastered the art of bowing and scraping. During the absence of the Embassy staff he received visitors and passed himself off as the secretary.

One caller was so charmed with Michaud that he invited the disguised valet to visit him at his country residence. The valet agreed and fixed a date. He was received with open arm by madame and her daughters. Madame had her suspicions aroused, however when she caught the visitor kissing a maid and her husband was positive that there was something wrong when he missed some of his jewelry and money.

Michaud was watched by the police who arrested him and to-day he was sentenced to two years imprisonment.

sailing under the regulations of the PAPER WINS BROKERAGE TRADE Many Londoners Patronize "Daily Mail" as an Exchange.

Special Cable Despatch to THE SUN. LONDON, June 13.-The public is re sponding eagerly to the Daily Mail's tockbroking scheme by which the alleged forthcoming excessive commissions of the London Stock Exchange can be over come. The paper this morning prints a large number of want offers, that is of stocks that are wanted by purchasers. It says it is overwhelmed with communi catioos on the subject and cannot print more than a selection.

ART TREASURES SMUGGLED.

Italy Trying to Recover Tiepolos Spirited to Paris. Special Cable Despatch to THE SUN.

GENOA, June 12.—Three Tiepolos, depicting scenes from Tasso's poems and belonging to the Cartler family, have been smuggled to Paris. The Government has been trying to recover them.

It is computed that the health crusade in the last twenty years has resulted in saving the lives of 28,000 Londoners each Hollman Forter, Commissioner of Public Health of the State of New York. ment has been trying to recover them. year.

HUNGRY LABORERS HUNT AQUEDUCT CONTRACTOR

were graduated and gifts amounting to more than \$275,000 were announced. Mrs. Russell Sage gave \$75,000 to complete the Olivia Josselyn Hall dormitory in memory of her mother, for which she gave \$100,000 last Five Hundred Italians on Garrison's Contract Left Without Pay.

MEN IN AN UGLY MOOD

March to Home of Ex-State Senator Goodsell, but He Is Away.

GARRISON, N. Y., June 12.-Two hundred and fifty aqueduct police and the local authorities are to-night keeping close watch on 500 Italians who have been left penniless and hungry by the failure of the Hicks-Johnson Company, incorporated,

to pay them their wages.

The men were working on the Garrison contract of the New York aqueduct, which has had many vicissitudes, and matters reached a critical stage to-day when about 300 of the men went over the ferry and marched to Highland Falls in an effort to find ex-State Senator Louis F. Goodsell treasury of the company, who, however could not be found. They returned over the ferry and marched back to their camp in an ugly mood.

Just who is to blame for the condition existing to-night would take a Phila: delphia lawyer to work out. All that is known is that the men, including about fifteen superintendents, engineers and mechanics, have about \$85,000 due them, and Harry Goodsell, the Senator's son who runs the commissary where they might buy a little food, has shut down or credit. They are, therefore, subsisting as best they can. The more fortunate thrifty workmen are contributing a little and some of the country people are help-ing out. There is no immediate prospect

The Garrison contract, which is about five miles long, originally went to the McNally Contracting Company, of which sign Tim Sullivan was supposed to be a party, but that company went into the hands of receivers in 1910. At that time Benjamin B. Odell, Jr., and a man named Paine were appointed receivers. In the following year the receivers turned the contract over to Meenan Bros., of New York, who went broke promptly, and after that the Hicks-Johnson Company, incorporated, took it up.

son Company, incorporated, took it up. The Hicks-Johnson Company, incorporated, is not to be confounded with the Hicks-Johnson Construction Company of Long Island City, although members of that firm are interested in the present

An effort to get the city to make allow-

An effort to get the city to make allow-ances for the extra work involved having failed, there was nothing to do but to turn the contract back to the receivers, who said they had no McNally money to

who said they had no McNally money to pay the men with.

This much is known. The 500 men had about \$15,000 due them three weeks ago last Saturday on the bi-monthly pay day and when the men went to the office the money was not there. The foremen said yesterday they were told by telephone from Highland Falls that the money would be even it right to the following. phone from Highland Falls that the money would be over all right on the following Monday and on that day they were further informed that Thursday was the day. In this manner all the men were kept working for the other term until sud-denly further credits were refused at the commissary.

he commissary. Then the excitable Italians became ugly and the police came in about three days ago. There has been no trouble yet, for the foremen are remaining with the men, they being in the same boat. Chief

the foremen are remaining with the men, they being in the same boat. Chief Engineer Rosen said to-day that they have been going along ever since unable to get a word of any kind from any person connected with the company.

The expedition to Highlands Falls this morning threw the authorities on the West Point side of the river into great excitement. As the men would touch on the military reservation an effort was made to have them stopped by soldiers, but the post commandant refused to interfere so long as the men were orderly. They marched through Highland Falls to the Goodsell home, but not even a servant was found there. They came upon Harry Goodsell in the street and he told them his father was in New York and he did not know anything about it.

The aqueduct police are endeavoring to get some representative of the company or of the receivers to visit the men and explain the situation. There seems to be no doubt that the men will be paid ultimately, but how soon no one has yet said. ltimately, but how soon no one has yet

DINNER FOR RETIRING DIPLOMAT Count Wolff-Metternich Guest of Ambassador and Mrs. Reid.

Special Cable Despatch to THE SUN. LONDON, June 12 .- Whitelaw Reid, the American diplomatio representative at the Court of St. James's, and Mrs. Reid gave the first of the amabasadorial farewell dinners to-night at Dorchester House to Count Wolff-Metternich, the retiring German Ambassador.

In the grand salon of the embassy there was a long table which was elaborately decorated with orchids and Malmaison

Nearly all the members of the diplo matic corps were present and a number were accompanied by their wives. There were also as guests Sir Edward Grey the British Foreigh Secretary; the Mar quis of Lansdowne, J. Pierpont Morgan Mrs. Joseph Chamberlain, Mrs. Burne, the mother-in-law of Mrs. Walter Burns Mrs. Joseph Stickney and her sister Mrs Reynolds, Winston Churchill, the First Lord of the Admiralty; Lord Morley, the Earl and Countess of Lonsdale, Sir Ernest Cassel and a dozen other prominent mem bers of society

LONDON IS IN BETTER HEALTH. Health Crusade Saves 28,000 Lives Each Year.
